Invite you to:

Trauma Informed Care and Sensory Regulation

Kimberly Barthel, OTR

Kim Barthel is a world-renowned therapist, facilitator, speaker and teacher on the topics of developing self-awareness, compassion and healthy relationships. Sensory processing and the neurobiology of attachment, abuse and addiction are the emphasis of Kim's current practice, writing and teaching.

October 10, 2017

6:30–8:30pm

SSCY Centre

1155 Notre Dame

This evening presentation followed by group discussion will provide participants with an overview of the connection between attachment, developmental trauma and sensory processing issues.
